Centre Manager Comments

"Learners arrive from all walks of life and the majority want civilian qualifications so when the day comes for them to return to civilian life their RAF training and experience will be recognised by potential civilian employers. Both the Apprenticeship including Technical Certificate have been fully crossed mapped to the Basic Movements Training Course held at the Defence Movements School and further embraces the comprehensive on-the-job record of achievement."

Apprentice Comments

"It's a really challenging job. I didn't think the training would be as long and as intense as it has been. The Maths and English refresher definitely helped with the job. The training is all integrated and I am putting all my knowledge into good practice. It has given me confidence to take what I have learned at the training school into the wider RAF workplace environment. I would strongly recommend apprenticeships"
