

Continued from home page

The Defence Survival, Evasion, Resistance, Extraction Training Organisation arrived in early-2009 and employs 100 highly trained military staff who are responsible for increasing the survivability across all types of military operations for over 5000 military personnel each year.

Defence Training Estates SW arrived in 2010 and utilise the excellent accommodation and messing facilities at St Mawgan, along with fantastic coastal and training area facilities to support a wide variety of tri-service military and cadet organisations. In its first year DTE brought in over 90 000 extra personnel/nights to the region; thereby benefiting the economy, UK Forces and Youth Engagement.

RAF St Mawgan is now a 22 Group Training Station and is commanded by Wg Cdr Graham 'Sheds' House.
