

Flexible Service & Alternative Working Arrangements Poll

What are your thoughts?

Please tell us about your views – we're listening

Why is this poll being conducted?

There are various forms of flexible working available to Service personnel including Flexible Service (FS) and Alternative Working Arrangements (AWA). We are interested in your current understanding, impressions and experiences of FS and AWA.

Who can take part?

Any Regulars serving in the RAF. Participation is entirely voluntary but the more responses we have the more confident we can be that the evidence collected represents all personnel.

It will not be possible to identify you from your responses. Any information or personal details you provide will remain strictly confidential.

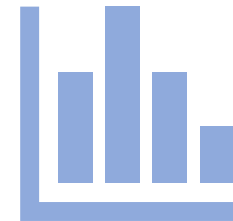

What will I be asked to do?

You will be asked to complete a short online survey which should take less than 10 minutes to complete.

Copy and paste the following link into Google Chrome:
<https://surveys.mod.uk/index.php/265832>

The survey can be completed on any device even your smart phone.

What will happen to the information I provide?

The HQ Air Occupational Psychology Team will analyse and report on the findings. This evidence will be used by the RAF Employment Policy and the Tri-Service Modernising Terms of Service teams to monitor attitudes towards FS and AWA, as well considering ways to improve policy and actions.

The closing date is Mon 30 Nov 20.
